

From the Facilitator...

Hello! My name is Cristiana and for the last 7 years I have been working and training with transphysical medium and spiritual teacher, Rev. Mychael Shane. I have focused on my healing at a multi-dimensional level and the development of my spiritual gifts. This journey has been the most transformative and intimate experience with Self that I could ever imagine. My direct experiences with Spirit (such as the Ascended Masters of Shamballah) have brought me to a place of healing, expansion, love and humility...for myself, humanity and all that IS. These experiences have enabled me to see with my heart-mind, letting go of the fear, and allowing myself to just BE. I would be honored to have you join me in this journey, and I hope along the way, you are inspired to find your own truth, and whatever does not resonate, send it back with love.

"In the world of the unseen, the eyes are blind and the mind constricts into the hollows of fear. It is in this place where one is left with their heart and internal voice. It is here, where even in the darkness, the divine spark of light illuminates within and without. It is from this place we come into a creative physical expression of who we truly are."

Namaste 🌀 Cristiana
